

ABOUT

This 4-ply rayon thread is woven with three strands of metallic, giving it a highly textured and intensely sparkling surface. Comparable in weight to a #8 perle cotton, Sizzle™ is stiffer and heavier with a coarse surface that makes a "sizzling" noise when you run your fingers across it. Find it in 13 colors in 180m (197yd) spools.

APPLICATIONS

Use Sizzle™ for bobbin work, serging, couching, knitting, crochet, tassels, cording, fringes, bead work, hand work.

USES:

Interchangeable with Razzle™ and Dazzle™ in most applications. With all the metallic, Sizzle™ is slightly heavier and stiffer than Razzle™ or Dazzle™ and is not as soft against the skin.

THREAD

4-ply rayon metallic comparable to a #8 perle cotton.

Finish: glitters
